

CHEMICAL SAFETY IN SCHOOLS

PROFESSIONAL DEVELOPMENT WORKSHOP

with internationally recognized expert

SAMUELLA SIGMANN

April 17, 2021

This workshop is designed to enable educators to determine hazards and reduce risk in a teaching environment. The workshop will be organized in three modules, and participants can select which modules to complete. Workshop topics will include the most recent information on the GHS system of labeling chemicals, chemical inventory and storage, risk assessment, the basics of hazardous waste management, how to evaluate the safety quality of a YouTube clip, and how to evaluate the quality of a safety data sheet.

The PD Modules include:

9:00 - 11:00 Chemical Safety Toolbox

11:30 - 1:30 Managing Chemicals Safely

1:45 - 3:45 Hazards and Risks

Many new resources developed by the American Chemical Society will be discussed. The workshop leader is Ms. Samuella Sigmann, CCHO, of Appalachian State University.

After registration, participants will receive links to participate online. After the sessions, participants will receive a boxed set of classroom safety materials.

Register for workshop at
