

APPALACHIAN STATE UNIVERSITY

TEACHING CONTROVERSIAL

ISSUES IN THE SCIENCE

CLASSROOM

JULY 22-26

In this workshop, middle and high school teachers will learn how to discuss controversial issues, such as evolution, climate change, and sustainability, with students. Teachers will explore resources for teaching controversial issues and will develop and share materials to take back to their classrooms.

Sessions will run from 8:30 - 4 Monday through Thursday and 8:30 - 12 on Friday. Parking passes and light snacks will be provided, and there is no cost for registration. Sessions are held in classroom 115 in the College of Education building on the Appalachian State University campus. Teachers receive 3.0 renewal credits in science.
