FAMILY MATH NIGHTS

Instructors: Dr. Bill McGalliard & Birgitta

**TEACHERS, PARENTS,
And STUDENTS
INVITED!**

**Dr. McGalliard makes
Learning MATH Fun
and Exciting !**

Dr. & Mrs. Bill McGalliard (Dept. of Mathematical Sciences) visit area schools presenting activities which emphasize problem solving, logical thinking, numbers and operations, geometry, spatial thinking and patterns. Their program has always been well received.

Dr. McGalliard leads the program for one to two hours, usually starting about 6:00 p.m. during a weekday evening. All participants enjoy the math puzzles and games and go away with a renewed interest and excitement about mathematics. Families work together to solve problems and it is a great public relations opportunity for the school. The only obligation for the schools is to publicize the event and get folks to attend. Most schools provide some sort of inexpensive refreshments for the families.

To register your school for a "Family Math Night", please contact Ms. Leah McManus at mcmansld@appstate.edu or you may phone her at 828/262-3185

**CALL TODAY AND
SCHEDULE YOUR SCHOOL
FOR A NIGHT OF MATH &
FAMILY FUN!!!**

**Note: No more than 12 schools
will be scheduled during the
semester; schedule early.**
